

# HOW TO TEACH YOUR CHILD TO UNDERSTAND YES AND NO

YES

NO

**We teach the child YES and NO to understand and pronounce, if he knows about 10 words and a few basic verbs.**

**YES**

**NO**

**Because if he learns to pronounce yes and no early, it will be more difficult for him to learn to pronounce basic concepts, for example, if you ask him if he wants a cake, he will know to answer yes or no, but he will not know how to pronounce the word cake.**

**It is also very important to say YES with a certain intonation and say NO with a different intonation.**

**YES**
